IN THE CLAIMS:

Amend the claims as follows:

This listing of claims replaces all prior versions and listings of the claims in this application.

1. (Original) A game of chance comprising:  
an elongated play piece having a game portion end and an identification portion end,  
a serial number printed on the identification portion end,  
a first play combination printed on the game portion end at a first distance from the serial number, and  
a second play combination printed on the game portion end at a second distance from the serial number, the second distance being greater than the first distance,  
wherein the play piece is folded to form an unused position wherein the serial number is revealed and the first and second play combinations are concealed, and the play piece can be unfolded to first reveal the first play combination and then the second play combination.
2. (Original) The game of chance of claim 1, wherein the play piece is a single ply material.
3. (Original) The game of chance of claim 1, further comprising a third play combination printed on the game portion, the third combination being separated from the serial number by a third distance that is greater than the second distance.
4. (Original) The game of chance of claim 1, wherein the play piece is sealed to prevent the accidental revealing of the game portion.
5. (Original) The game of chance of claim 4, wherein the play piece is sealed with a band.
6. (Original) The game of chance of claim 4, wherein the play piece is sealed with crimping.
7. (Original) The game of chance of claim 4, wherein the play piece is sealed with glue.
8. (Currently Amended) A game of chance comprising:  
a play piece having a game portion and an identification portion,

a serial number printed on the identification portion,  
a concealable first play combination printed on the game portion, and  
a concealable second play combination printed on the game portion,  
the first play combination being concealed when the second play combination is concealed,  
wherein the play piece is configured such that the serial number is  
revealed and the first and second play combinations are concealed when the ~~play piece is in  
its unused position~~ first and second play combinations are folded over each other and the first  
and second play combinations are revealed ~~in sequence~~ by opening the play piece.

9. (Original) The game of chance of claim 8, wherein the play piece is a  
single piece of paper.

10. (Currently Amended) The game of chance of claim 8, further  
comprising a third play combination printed on the game portion, the third combination being  
concealed when the ~~play piece is in its unused position~~ first, second and third play  
combinations are folded over each other and the third combination being revealed when the  
play piece is opened.

11. (Original) The game of chance of claim 8, wherein the play piece is  
sealed to prevent the accidental revealing of the game portion.

12. (Original) The game of chance of claim 8, wherein the game portion is  
revealed when the play piece is used.

13. (Original) The game of chance of claim 12, wherein the play piece is  
unfolded during use to reveal the game portion.

14. (Original) The game of chance of claim 8, further comprising an  
unused portion disposed between the serial number and the first play combination.

15. (Original) The game of chance of claim 14, wherein the unused portion  
is revealed by unfolding the play piece by a single fold.

16. (Amended) A game of chance comprising:  
a play piece having a game portion and an identification portion,  
a serial number printed on the identification portion,  
a first play combination printed on the game portion and revealable  
during play, and

a second play combination printed on the game portion, the second  
play combination being separated from the first play combination by a fold located between
